

Congratulations on the purchase of your new puppy from Paw Pals R Us!

We have made every effort to provide you with a happy and healthy puppy. Your puppy will be vaccinated and de-wormed as scheduled. You will be given records to give to your veterinarian, showing past vaccinations and de-wormings. Upon receiving your puppy, buyer has 72 hours to have the puppy checked by a licensed veterinarian. At this exam, in the unlikely event your puppy is found to have a life threatening hereditary congenital defect, we will replace the puppy with another one of equal value.

Puppy is guaranteed for 1 year from date of birth against life threatening congenital defects. If within this time period a life threatening congenital defect is found, a replacement puppy will be given of equal value. Seller has the option to request the return of the puppy before any replacement is given. If this is deemed so, then arrangements must be made to return the puppy to the seller with the registration papers within 24 hours at no expense to the breeder. The puppy must be accompanied by a written veterinarian report by two non-associated veterinarians. Replacement will be subject to availability (within 6 months). We do not refund money. If in the unlikely event the puppy dies within this 1-year time period, due to congenital defects, a statement from the veterinarian is required before any action will be taken by the breeder. If the cause is not known, an autopsy will be required. This guarantee does not include non-life threatening or temporary disorders such as uneven bites, undescended testicles, demodex mange, injuries, inguinal or umbilical hernias, fleas, ticks, ear mites, kennel cough, intestinal worms and parasites such as Coccidiosis or Giardia, scabies, eye entropion, cherry eye, and allergies. Breeder will not be responsible for Parvo, Distemper, or Corona Virus after 48 hours of the sale; these diseases are highly contagious and can be contacted immediately after leaving the breeder. If your puppy is diagnosed with hip or elbow dysplasia before 1 year, and it is determined by two non-associated veterinarians to be genetic and not caused by abuse, injury, trauma, neglect, obesity or any other non-hereditary factor, breeder will provide a replacement puppy of equal value in exchange for the puppy. Breeder will not be responsible for the cost of hip replacements, etc. Veterinarian checkups and vaccinations must be kept current for any warranties or guarantees to be valid. This contract is for the original buyer that purchased a puppy from Paw Pals R Us. To keep health guarantee in effect, buyer agrees to provide quality food, housing, and good medical care. Responsible owners/buyers will provide their puppy with routine preventative care, all immunizations, and exams by a licensed veterinarian. If terms and conditions are not fulfilled, this contract is null and void. Breeder will not be responsible for any veterinarian expenses, or any other expenses incurred by the buyer. The breeder is not responsible if puppy temperament is not as expected, nor changes in coat color.

We hope you will be happy with this sweet puppy that we have invested much time and love in! Please feel free to call with any questions and send us pictures as they grow! We enjoy watching our puppies grow!
